2022 GENERAL ELECTION SURVEY**

CONDUCTED BY THE SPIA SURVEY RESEARCH CENTER

OCTOBER 7, 2022

M.V. HOOD III

PROFESSOR OF POLITICAL SCIENCE

AND

DIRECTOR, SPIA SURVEY RESEARCH CENTER

School of Public and International Affairs

Department of Political Science

SPIA Survey Research Center

General Information:

The AJC 2022 General Election Poll was a live interviewer telephone survey conducted September 25-October 4, 2022 that included a total of 1,030 likely general election voters in Georgia. Likely general election voters were respondents who had voted in the 2018 general election, and/or the 2020 general election and/or the 2021 statewide runoff, and/or the 2022 May statewide primary; who indicated they were currently registered to vote in Georgia; and who were *definitely* or *probably* going to vote in the 2022 general election in November. The survey was administered by the School of Public and International Affairs Survey Research Center at the University of Georgia. Interviews were conducted in English. A dual-frame statewide random sample consisting of approximately 90% cell phone numbers and 10% landline numbers was obtained through L2 (L2 is a sampling vendor that maintains a database constructed from state voter registration lists. Through commercial sources, phone numbers have been appended to the individual records (registrants) that make up these lists). The survey results were weighted using iterative proportional raking in order to ensure the sample was representative of the 2022 general electorate in terms of race, sex, age, and education. The calculated margin of error for the total sample is +/-3.1 points at the 95% confidence level. This would mean that if 50% of respondents indicate a topline view on an issue, we can be 95% confident that the population's view on that issue is somewhere between 53.1% and 46.9%.

Verification:

Before results for any head-to-head election match-up are released, they are corroborated by an outside entity. More specifically, the outside entity replicates our reported results for any head-to-head races and confirms they are the same. For this survey, the results we report for the 2022 general election were verified by the Wason Center for Public Policy at Christopher Newport University in Newport News, VA.

Statistical Calculations:¹

Governor: The difference between first-place candidate Kemp's estimated vote share and Abram's estimated vote share, at 10.3, is statistically significant. In plain English, Kemp leads Abrams in the governor's race.

U.S. Senate: The difference between first-place candidate Warnock's estimated vote share and second-place candidate Walker's estimated vote share, at 3.0, is not statistically significant. In plain English, the U.S. Senate race is a dead heat.

¹The formula used to determine if the difference in vote percentages between candidates is statistically significant is derived from Alastair J. Scott and George A.F. Seber. 1983. "Difference of Proportions from the Same Survey." *The American Statistician* 37(4): 319-320.

Lt. Governor: The difference between first-place candidate Jones' estimated vote share and second-place candidate Bailey's estimated vote share, at 4.7, is not statistically significant. Jones and Bailey are tied in the race for Lt. Governor.

Secretary of State: The difference between first-place candidate Raffensperger's estimated vote share and second-place candidate Nguyen's estimated vote share, at 14.0, is statistically significant. In plain English, Raffensperger leads Nguyen in the race for Secretary of State.

Attorney General: The difference between Carr's vote share and that for Jordan, at 8.6, is statistically significant. Carr is currently ahead of Jordan in the race for Attorney General.

Q1: Gubernatorial Vote

Q23: As you may know, President Biden has announced a plan to cancel some federal student loan debt for Americans earning less than \$125,000 a year. Borrowers who are eligible would be forgiven \$10,000 in federal student loan debt and those who received Pell Grants would be forgiven up to \$20,000. Do you approve or disapprove of President Biden's plan?
